## QUALITY POLICY

Bosworth scope of supply is the manufacturing of Conveyor pulleys, Heat Treatment, Fabrication, Plate Rolling, Forgings, Machining, Profiling and Guillotining, of Mining equipment and related parts.

Top management of Bosworth is committed to identifying the needs of its clients. Our main objective is to maximize profits for our shareholders and to manufacture quality products in accordance to specification. To this end we must consistently produce goods of reliable quality and to the correct technical standard in an agreed time period. We further commit ourselves to a policy of continuous improvement of our products and processes and to the application of the International Standards.

To continually achieve this policy we need to provide confidence amongst our own management and clients that our products achieve and sustain the intended standard of quality which is ISO 9001:2008.

The provision of products ensuring safety and reliability in operation under the specified conditions by proper application of the following:-

- i) Technology      ii) Purchasing      iii) Manufacturing      iv) Inspection

We strive to safeguard and enhance the company's reputation as a manufacturer of quality products and endeavor to minimize costs relating to losses due to lack of quality control.
